

State Parks and Wildlife Conservation Trust Fund Act of 2010 Individual Endorsement Form

From the vast stretches of sandy beaches along California's magnificent coastline to the towering redwoods and much-needed recreational areas in the state's bustling urban centers, California's 278 state parks are **priceless public assets** and a **vital legacy for our children and grandchildren**.

But the state's **parks are in peril**. Budget cuts are starving state parks, causing them to fall **severely behind in needed maintenance and repairs**. Twice in the past two years, state parks were **on the brink of being shut down**. Only last-minute budget reprieves kept them open. But nearly 60 state parks will be shut down part-time or their hours of operation reduced because of this year's budget cuts, and more **park closure proposals and budget cuts** are expected next year.

That is why a statewide ballot measure, slated for November 2010, has been prepared that would create the **State Parks and Wildlife Conservation Trust Fund**. The fund would provide a stable, reliable and adequate source of funding for the state park system, for wildlife conservation and for increased and equitable access to those resources for all Californians.

I support the State Parks and Wildlife Conservation Trust Fund. You may list me publicly as a member of the coalition formed to support this measure.
