

# Save-the-Redwoods League

## Memorial Grove List

Since 1921 more than 950 redwood Memorial Groves have been established in thirty of California's beautiful redwood parks. Each grove provides an everlasting memorial to an individual, family or organization. Funds raised through this program have been a critical part of the financial support that has made the League so successful over the years.

There are still hundreds of beautiful groves available for dedication. For more information on our grove program, please visit our website at [www.savetheredwoods.org](http://www.savetheredwoods.org).

The following is a list of all Groves that have been established in the redwood parks. The Groves are listed in chronological order.
