## EXPERT BIO

- Richard joined the League's staff in 2012 as the Conservation Science Manager. Campbell has nearly a decade of experience working in forest management and restoration.
- Campbell currently oversees the League's fee and conservation easement properties, and he's the organization's point person for Redwoods Rising, a collaborative including the League, National Park Service, and California State Parks to restore 70,000 acres of previously logged and degraded forest in Redwood National and State Parks.
- Campbell has been a member of a California Natural Resource Agency working group and written extensively about forestry and redwoods, including co-authoring a paper presented at the U.S. Forest Service's 2016 Coast Redwood Science Symposium.
- Campbell holds a Master of Forestry degree from the Yale School of Forestry and Environmental Studies and a BA in Environmental Studies from the University of Chicago.

## SAVE THE REDWOODS LEAGUE

Established in 1918, Save the Redwoods League, one of the nation's oldest conservation organizations, protects and restores coast redwood and giant sequoia forests and connects visitors with their peace and beauty. Its more than 20,000 supporters have enabled the League to protect more than 214,000 acres of irreplaceable forests and help create 66 redwood parks and reserves. For more information, visit [SaveTheRedwoods.org](http://SaveTheRedwoods.org).
