ABOUT SAVE THE REDWOODS LEAGUE

Save the Redwoods League is a nonprofit organization whose mission is to protect and restore California redwoods and connect people to the peace and beauty of redwood forests. The League protects redwoods by purchasing redwood forests and the surrounding land needed to nurture them. We restore redwood forests by innovating science and technology that can improve stewardship and accelerate forest regeneration. And by protecting more than 200,000 acres and helping to create 66 redwood parks and reserves, the League builds connections among people and the redwood forests. The League's work is grounded in the principles of conservation biology, research and improving our collective understanding and appreciation of the redwoods.
